Hydrologic Engineering Center Software Distribution Domestic

Since October 1988, the Hydrologic Engineering Center (HEC) has not directly distributed software to non-Federal offices and since October 1996, HEC has not directly distributed software to non-Corps (non-subscribing) offices. To help meet the need for distribution and support services, HEC has transferred documentation and executable software for MS-DOS computers to the National Technical Information Service (NTIS) for general distribution. Additionally, computer programs HEC-1, HEC-2, and HEC-RAS have been provided to PC-Trans and McTrans, which distribute software for state and federal highway agencies.

To promote a wider distribution and additional user support of HEC software, a list of vendors has been developed. These vendors have obtained their software from HEC and have indicated their distribution and support services. The list is divided into two categories to assist in locating a vendor that provides an appropriate service for your needs. The vendors are listed by the following categories:

1. Government-Sponsored Distributors
2. Vendors Providing Programs Plus Other Services

To obtain HEC software not listed, or if you have difficulty obtaining HEC software, please contact us at: (530) 756-1104, office hours are: 7:30 a.m. to 4:15 p.m. Pacific Time.

All office hours listed for the vendors are local times.

US Army Corps of Engineers
Institute for Water Resources
Hydrologic Engineering Center
609 Second Street
Davis, California
USA 95616-4687

(530) 756-1104 FAX: (530) 756-8250

Other Services: Telephone Hotline; Engineering Assistance; Training

Hydrologic Engineering Center Software Distribution Foreign

Since October 1988, the Hydrologic Engineering Center (HEC) has not directly distributed software to non-Federal offices and since October 1996, HEC has not directly distributed software to non-Corps (non-subscribing) offices. To help meet the need for distribution and support services, HEC has transferred documentation and executable software for MS-DOS computers to the National Technical Information Service (NTIS) for general distribution. Additionally, computer programs HEC-1, HEC-2, and HEC-RAS have been provided to PC-Trans and McTrans, which distribute software for state and federal highway agencies.

To promote a wider distribution and additional user support of HEC software, a list of vendors has been developed. These vendors have obtained their software from HEC and have indicated their distribution and support services. The list is divided into two categories to assist in locating a vendor that provides an appropriate service for your needs. The vendors are listed by the following categories:

1. Government-Sponsored Distributors
2. Vendors Providing Programs Plus Other Services

To obtain HEC software not listed, or if you have difficulty obtaining HEC software, please contact us at: (530) 756-1104, office hours are: 7:30 a.m. to 4:15 p.m. Pacific Time.

All office hours listed for the vendors are local times.
